Fabretti was diagnosed with fibromyalgia in her early 30s. At the time, she was a successful businesswoman and mother of two young children. But the pain from fibromyalgia made it difficult for her to work and care for her family. She eventually had to give up her job and go on disability.

For years, Fabretti struggled to find relief from her pain. She tried medication, physical therapy, and alternative treatments, but nothing seemed to help. She became depressed and isolated, and she began to lose hope.

But then, Fabretti found faith. She began attending church and reading the Bible. She also started praying and meditating regularly. Over time, she began to experience a sense of peace and hope that she had never felt before.

Fabretti's faith also helped her to forgive herself for her limitations. She realized that she was not perfect and that she needed to accept herself as she was. This forgiveness allowed her to let go of the guilt and shame that she had been carrying around for years.

Today, Fabretti is still living with fibromyalgia, but she is no longer defined by her pain. She has found hope and healing through her faith and forgiveness. She now shares her story with others to help them find hope and healing in their own lives.

In Faith, Forgiveness, and Fibromyalgia, Fabretti offers:

- A personal story of living with fibromyalgia
- Hope and healing for others who are struggling with this condition
- Practical tips for managing fibromyalgia pain
- Spiritual guidance for those who are seeking comfort and healing

If you are struggling with fibromyalgia, or if you know someone who is, I encourage you to read Faith, Forgiveness, and Fibromyalgia. This book offers hope and healing to all who are affected by this debilitating condition.
