Bin Laden was born into a wealthy Saudi family in 1957. His father, Mohammed, was a successful businessman who had close ties to the royal family. Osama was the 17th of 52 children. His mother, Alia, was a beautiful and devout woman who instilled in her son a strong sense of Islamic faith.

As a child, Osama was shy and introverted. He was often teased by his siblings for his small stature and lack of athletic ability. But he was also a bright and curious student, and he excelled in his studies.

In 1973, when Osama was 16 years old, his father died in a plane crash. This event had a profound impact on Osama. He became more withdrawn and introspective, and he began to spend more time studying Islam.

In 1979, the Soviet Union invaded Afghanistan. Osama was outraged by this act of aggression against a Muslim country. He traveled to Afghanistan to join the mujahideen, the Afghan resistance fighters.

Osama quickly rose through the ranks of the mujahideen. He was a skilled military strategist and a charismatic leader. In 1988, he founded al-Qaeda, a terrorist organization dedicated to fighting against the United States and its allies.

The rest, as they say, is history. Osama bin Laden became one of the most feared men in the world. He was responsible for the deaths of thousands of innocent people. But his story is also a reminder that even the most notorious terrorists are human beings. They have families and friends. They have hopes and dreams.

Growing Up Bin Laden is a gripping and thought-provoking book that sheds new light on one of the most complex and controversial figures of our time.
