In his new book, 'What Artists Wear,' author Charlie Porter delves into the closets of some of the world's most iconic artists to explore the ways in which their personal style has influenced their work. From the flamboyant outfits of Frida Kahlo to the minimalist wardrobe of Agnes Martin, Porter reveals how clothing can be a powerful tool for self-expression and artistic inspiration.

"The clothes that artists wear are often as revealing as their work," writes Porter. "They can provide insights into their personalities, their creative processes, and their relationships with the world around them."

For example, Yayoi Kusama's signature polka dot dresses are not simply a fashion statement; they are an extension of her artistic practice. Kusama has said that her polka dots represent "the infinity of the universe" and that they help her to "lose herself" in her work.

Similarly, Jean-Michel Basquiat's graffiti-covered suits were a reflection of his outsider status and his rebellious spirit. Basquiat often used his clothing as a canvas for his art, and he was known for wearing suits that were covered in paint, markers, and other materials.

Porter's book is full of such fascinating stories about the ways in which artists have used clothing to express themselves. 'What Artists Wear' is a must-read for anyone who is interested in art, fashion, or the creative process.
