Are you looking for a new hairstyle that will turn heads? If so, you'll want to check out these hottest long and medium wavy hairstyles for women. From beachy waves to glamorous curls, there's a style for everyone.

## Beachy Waves

Beachy waves are a timeless style that is perfect for any occasion. They're easy to achieve and can be dressed up or down. To create beachy waves, simply mist your hair with a sea salt spray and braid it. Let the braids dry naturally, then take them down and finger-comb your hair. You can also use a curling iron to create beachy waves, but be sure to use a low heat setting to avoid damage.

## **Loose Curls**

Loose curls are another popular style that is perfect for special occasions. They're more glamorous than beachy waves, but they're still easy to achieve. To create loose curls, use a curling iron with a large barrel. Curl your hair in sections, starting at the roots. Once you've curled all of your hair, brush it out gently to create a soft, romantic look.

## **Tight Curls**

Tight curls are a bold and beautiful style that is perfect for women with a lot of hair. They're more difficult to achieve than beachy waves or loose curls, but they're definitely worth the effort. To create tight curls, use a curling iron with a small barrel. Curl your hair in small sections, starting at the roots.

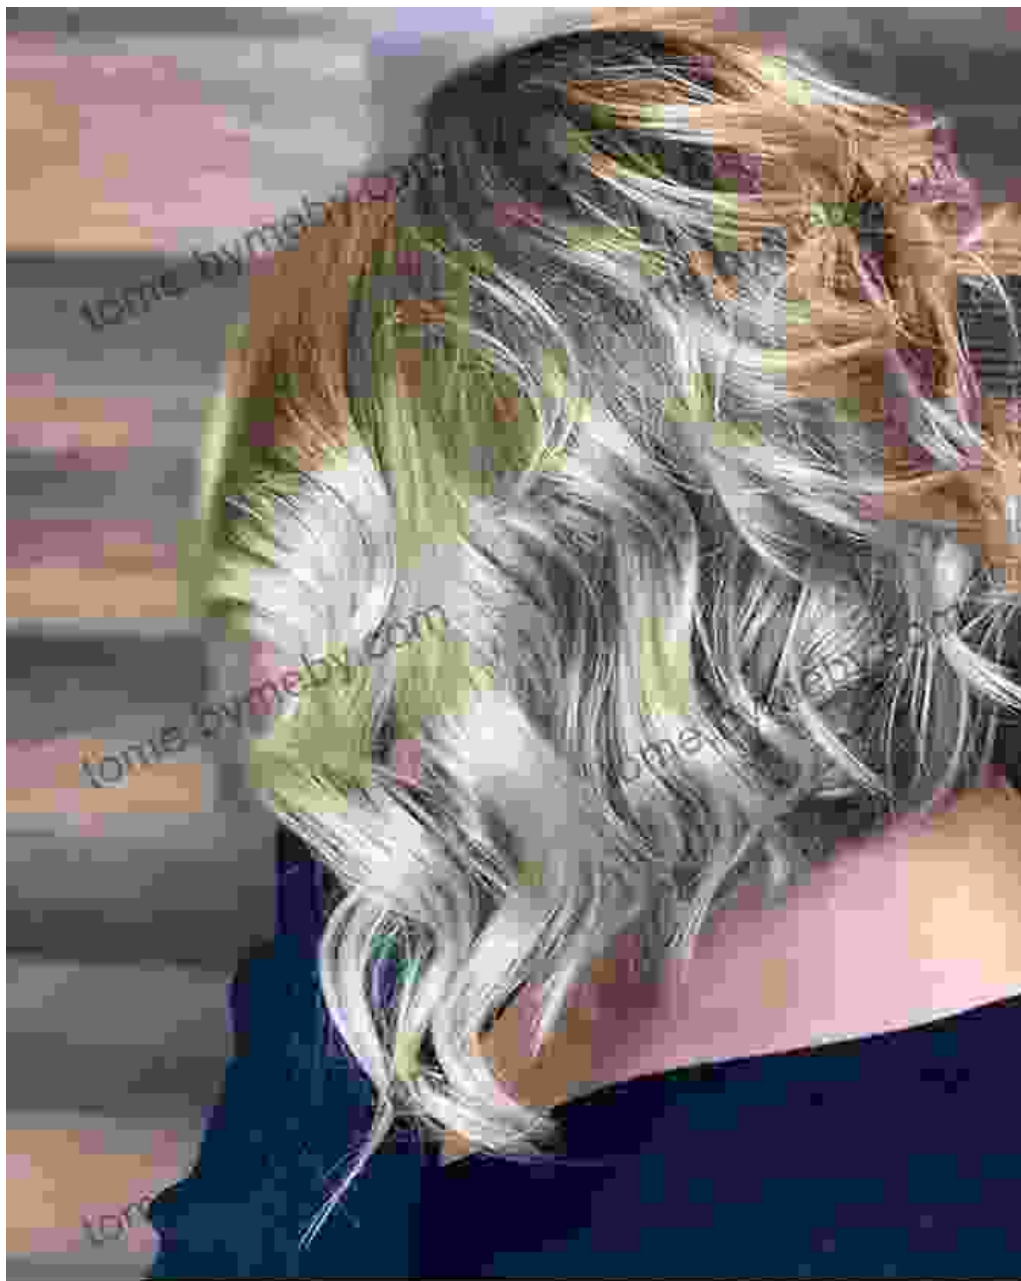

Once you've curled all of your hair, brush it out gently to create a voluminous, glamorous look.

### **Asymmetrical Waves**

Asymmetrical waves are a modern and edgy style that is perfect for women who want to stand out from the crowd. They're created by cutting the hair on one side shorter than the other. The shorter side can be styled with

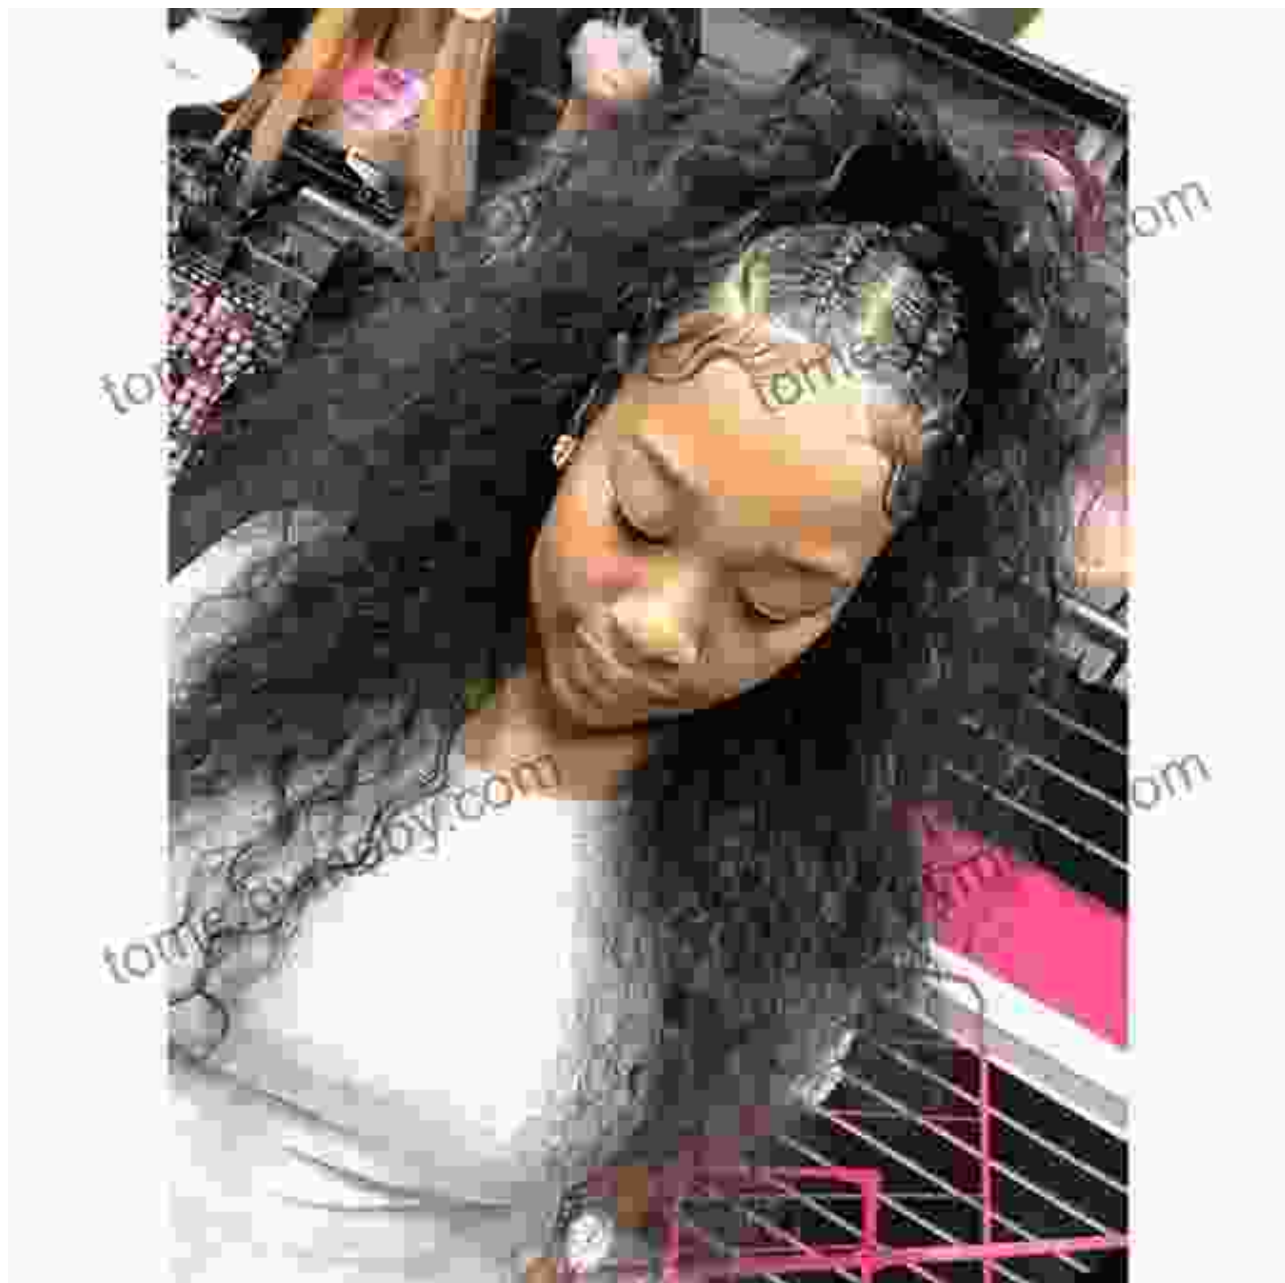

beachy waves, loose curls, or tight curls. The longer side can be left straight or styled with a different type of curl. Asymmetrical waves are a great way to add some personality to your look.

## Half-Up Styles

Half-up styles are a great way to keep your hair out of your face while still looking stylish. They're perfect for everyday wear or special occasions. To

create a half-up style, simply gather the top half of your hair and secure it with a hair tie or bobby pins. You can then style the bottom half of your hair however you like. You can leave it straight, curl it, or braid it. Half-up styles are a great way to show off your hair's natural texture.

## **Braided Styles**

Braided styles are another great way to keep your hair out of your face while still looking stylish. They're perfect for everyday wear or special occasions. There are endless possibilities when it comes to braided styles. You can create simple braids, complex braids, or even braided updos. Braided styles are a great way to add some interest to your look.

These are just a few of the hottest long and medium wavy hairstyles for women. No matter what your hair type or style, you're sure to find a look that you love. So experiment with different styles and find the one that makes you feel confident and beautiful.
